Youth & Parent Engagement

Morning Workshop Session (10:15am-11:15am)

Administrative / Clinical

Oral Health

SEAL! Michigan and Henry Ford Health System Oral Health Partnerships

Description

The SEAL! Michigan coordinator and the HFHS coordinator will discuss the partnership that exists between the Oral Health Program and Henry Ford Health System. The Dental Sealant Coordinator will discuss the importance of optimal oral health within students, preventative measures, access to care issues in Michigan and the SEAL! Michigan Dental Sealant Program. The HFHS Coordinator will discuss their role as a SEAL! Michigan grantee, how they have incorporated a dental sealant program (preventive care) into their SBHCs, access to oral health care solutions, and how comprehensive care is provided for their students.

Presented by

Jill Moore RDH, BSDH, MHA

Amanda Roffe, MPH

Organization

MDCH-Oral Health Program

Front Office / Medical Assistant

A Team Approach to Promote Efficiency in Your SB/SL Center

Description

Discuss the many roles the MAs & Business Assistants play in the clinics. The need for team work and flexibility will be discussed. Different models will be brainstormed as a group activity.

Clinical

Domestic Violence

Hangin' Out or Hookin' Up- How SBHCs can Promote and Support Healthy Relationships

Description

This presentation will introduce a Quality Assessment tool for SBHCs to gauge how they're doing in appropriately assessing and responding to Adolescent Relationship Abuse (ARA) and provide an example policy to implement within the SBHC. Presenters will highlight how to put policy into practice, provide multiple examples of ways to assess for ARA and ways to promote healthy relationships within the SBHC, school and community.

Presented by

Erika Van Dam, MPH, CHES, Family & Community Health Supervisor

Tammy Hickman BSN, CPNP

Organization

Health Department of Northwest Michigan

Engagement (Youth)

Supporting Youth Advisory Councils

Youth Engagement: Parameters for YAC Engagement and Teen Volunteerism

Description

As a result of participating in this session participants will be able to form Youth Advisory Councils and engage their council in meaningful ways within the school and the community. Participants will also understand the importance of Council descriptions, advocacy and boundaries that may limit some activities. Participants will also gain knowledge regarding volunteerism as it relates to teens in today's society.

Presented by

Janet Fergin, Program Coordinator

Organization

EUPISD- The C.A.M.P

Afternoon Workshop Session (2:15pm-3:15pm)

Clinical

Chronic Illness-Asthma Control in the School Age Child/Adolescent

Description

Deep Breath is an asthma education program that was conceived and implemented in St. John Community Health School Based health Centers in 1996 and has been modified and updated with input from staff and student participants. This 6 session program has achieved some good results in the following areas: Knowledge improvement, compliance, fewer days missed from school.

Presented by

Jonnie Hamilton, DNPc, PNP-BC
Esther Sikorski, DNP, PNP

Organization

Clinical / Administrative

Teenage Sexuality Issues and Perceptions

Influences on Adolescent Sexual Behavior: A New Tool for Adolescent Health Centers

Description

We have developed a new tool to get to some of the underlying reasons, beliefs and perceptions of adolescents and their sexual behavior. Our initial concept was that unsupervised time is a major influence on teen sexual behavior. This tool has helped us tremendously to learn a lot more about our patients on their first visit. We have been giving this tool to our patients since Jan. 2010 and we want to present our findings from analysis and professional academic analysis of the tool.

Presented by

Claudia Corbin, Director, Healthy Teens Community Care Center
Marie Shoulders-Williams, FNP
Elizabeth Barton, PhD

Organization

Detroit Community Health Connection, Inc

Administrative Track

EHR Incentives

Making Sense of the “Meaningful Use” Incentives for Electronic Health Record Adoption

Description

This session will review some of the public policy reasons behind the push for health information technology and give an overview of available resources for Michigan health care providers. In particular, Medicaid and Medicare EHR meaningful use incentives will be explained.

Presented by

John Hazewinkel

Terri Jenness and Brenda McLean from SCHA-MI will be available for questions
