

ORAL HEALTH TRAINING FOR NON-DENTAL PROVIDERS

Michigan Department
of Community Health

NOVEMBER 30, 2007

9:30AM—5:00PM

YOUTHVILLE ▪ DETROIT, MICHIGAN

Learning Objectives

Upon completion of this continuing education course, the participant will be able to:

1. Describe the status of Michigan oral health in comparison to Healthy People 2010 goals.
2. Using dental terminology, identify basic dental anatomy and supporting tooth structures and determine the exfoliation pattern of teeth.
3. Differentiate between dental caries, periodontal disease, tooth anomalies, non-risk oral conditions and cancerous oral lesions.
4. Explain the role of community water fluoridation, dental sealants, fluoride varnish, nutrition, and the utilization of mouth guards in achieving optimum oral health.
5. Describe the effects of oral piercing, tobacco use, pregnancy and methamphetamine use on the oral cavity.
6. Perform a dental screening on a partner and accurately record the results.
7. List the oral health programs available through the Michigan Department of Community Health.
8. Describe five tips for find a dentist to provide dental treatment.
9. Given a dental emergency, describe the first aid strategy that should be taken.
10. Identify two sources to assist the school nurse or health care administrator to develop an oral health curriculum.
