& Wellness Directory

# WHO WE ARE & WHAT WE DO!

The School-Community Health Alliance of Michigan (SCHA-MI) is dedicated to enhancing the health and educational outcomes of children and adolescents by equipping Child and Adolescent Health Centers (CAHCs) with the necessary advocacy and technical assistance.

Our mission is to ensure these centers can effectively support young people's health and education, while our vision is to become the innovative leader in Michigan, paving the way to health equity and transforming young lives.

We strive for equitable access to comprehensive and sustainable health services for all Michigan's children and young people. Our goals include optimal funding for CAHCs, empowering health teams to address holistic needs, ensuring access to physical and mental health services, improving student engagement and achievement through better health, providing robust support to CAHCs, increasing decision-makers' awareness and support, and fostering community advocacy for these essential health programs.

## OUR MISSION

*Empower Child and Adolescent Health Centers to support the health and educational outcomes for children and young people through advocacy and technical assistance.*

## OUR VISION

*The innovative leader for Michigan's child and adolescent health centers, creating the path to health equity that transforms the lives of children and young people.*

## PARTNERSHIP

*Cultivate relationships with superintendents and principals, foster connections with like-minded state associates, and collaborate with ISDs to align visions.*

## DATA & EXPERIENCES

*Share success stories, educate on state-mandated data, streamline data collection with a uniform system, create tools to track encounters beyond EMR, and monitor chronic absence for follow-up.*

## ADVOCACY

*Advocate for higher-needs districts to secure more funding, explore weighted funding options, empower parent activism, guide centers through political challenges, and ensure a seat at the table for all decisions impacting centers.*

## INNOVATION

*Review post-COVID program requirements, recommend necessary changes to the state, advocate for practical reforms, research innovations, and incentivize CAHCs to experiment and share successful outcomes.*

# LETTER FROM SCHA-MI BOARD PRESIDENT

Dear Friends and Partners,

It is my pleasure to introduce the latest directory of the School-Community Health Alliance of Michigan (SCHA-MI). This directory is more than just a collection of contacts and information; it represents the culmination of our collective efforts to enhance the health and educational outcomes for children and adolescents throughout Michigan.

Our mission at SCHA-MI is clear: to equip Child and Adolescent Health Centers (CAHCs) to support the health and educational outcomes for children and young people through dedicated advocacy and technical assistance. We believe that every child and adolescent deserves access to comprehensive and sustainable health services, and we are committed to making this a reality.

As we look to the future, our vision is to be the innovative leader for Michigan's child and adolescent health centers, creating a path to health equity that transforms the lives of young people. This vision is not just aspirational; it is a roadmap for the tangible changes we aim to bring about in our communities.

Our desired outcomes reflect this commitment. We strive for optimally funded health centers, empowered CAHC teams addressing holistic needs, and universal access to physical, mental health, and preventive services for all children and adolescents. We know that improved health and self-care lead to better engagement in learning environments and help young people achieve their life goals.

We also recognize the importance of support and advocacy. Our goal is for CAHCs to feel backed by a strong and vibrant state association, for decision-makers to be increasingly aware of the impact and necessity of child and adolescent health programs, and for communities to actively advocate for these essential services.

The success of our mission relies on the collaboration and dedication of individuals like you. As you explore this directory, I hope you see it as a testament to the shared commitment of our network. Together, we are building a healthier, more equitable future for Michigan's children and young people.

Thank you for your continued support and partnership. We look forward to working with you to achieve our vision.

Sincerely,

*Kenneth Coleman*

Dr. Kenneth Coleman, LPC, PhD

President, Board of Directors

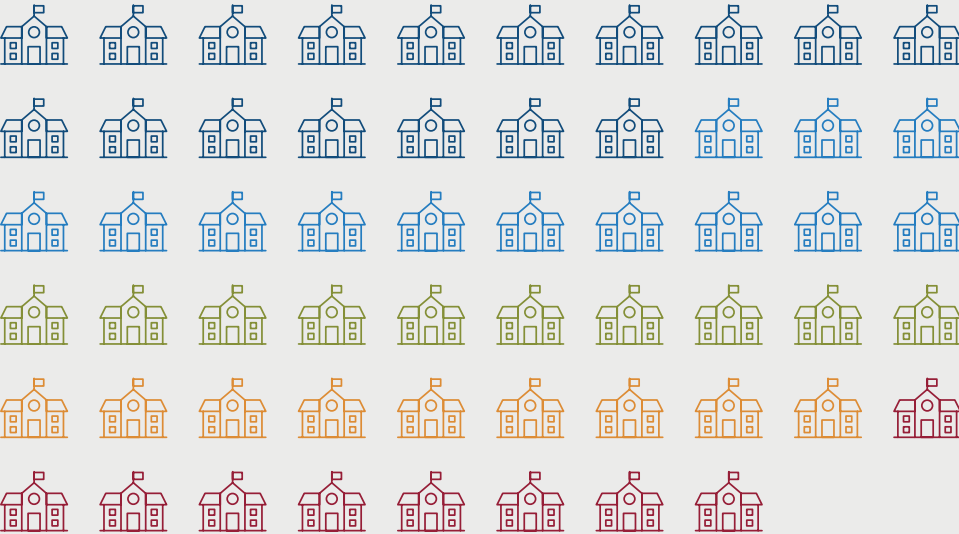

School-Community Health Alliance of Michigan

# INTRODUCING THE FIDUCIARY

Child and Adolescent Health Centers (CAHCs) are supported by a network of fiduciaries that include Federally Qualified Health Centers, hospitals, health departments, schools/Intermediate School Districts (ISDs), and other community partners. These fiduciaries play a crucial role by offering supplemental support and staffing for CAHC programs, ensuring the delivery of comprehensive health services to children and adolescents. Through this collaborative effort, CAHCs can effectively provide primary, preventive, and early intervention health care, promoting the physical, intellectual, and emotional well-being of youth within the community.

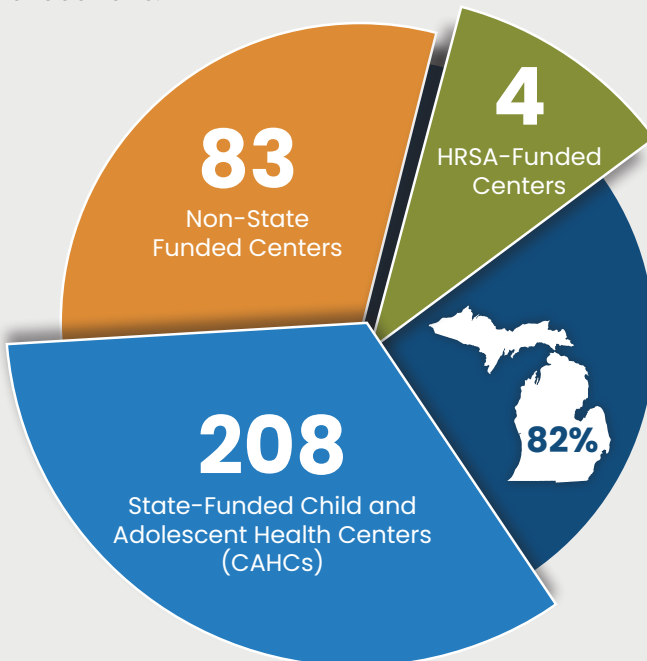

THERE ARE **58** STATE FUNDED FIDUCIARIES:

# FUNDING SOURCES

Child and Adolescent Health Centers (CAHCs) can receive funding from three primary sources: state, federal, and external.

- **STATE FUNDED:** In Michigan, most centers are state funded, with allocations made through the state school aid budget, which must be reapproved each fiscal year running from October 1st to September 30th. State funding is specified in two budget line items: 31a7, which supports clinical sites such as child and adolescent health centers, school wellness programs, alternative sites, and school-linked sites; and 31n5, which funds mental health-only sites known as E3. These state-funded centers are managed by the Michigan Department of Health and Human Services and must adhere to state minimum program requirements.
- **FEDERALLY FUNDED:** Some sites receive federal funding through the Health Resources and Services Administration (HRSA), part of the U.S. Department of Health and Human Services (HHS). Federally funded sites follow the requirements set by HHS instead of state requirements.
- **EXTERNALLY FUNDED:** Local funding for CAHCs can come from various sources, including foundations, county funds, and school district allocations.

***With CAHCs present in 68 out of 83 counties, these centers represent 82%\* of Michigan's counties, ensuring widespread access to vital health services for children and adolescents.***

\*2024 REFERENCE DATA

# INTRODUCING THE PROGRAMS

The strength of the Child and Adolescent Health Center (CAHC) program lies in its flexibility and community-driven approach. Rather than a one-size-fits-all model, CAHCs are tailored to meet the unique needs and priorities of each community. Schools, local leaders, and stakeholders come together to determine the best program fit—whether it's a full-service health center, a school wellness program, or a behavioral health model. This collaborative process ensures that every CAHC is a reflection of the community it serves, providing the right services in the right way to support the health and success of children and adolescents.

- The **Michigan Department of Health & Human Services Child and Adolescent Health Center Program** aims to optimize the physical, intellectual, and emotional well-being of adolescents by offering high-quality, accessible, and acceptable services. This program includes three service delivery models: clinical health centers, School Wellness Programs, and Behavioral Health Service models.
- **Child and Adolescent Health Centers (CAHCs)** provide essential primary, preventive, and mental health services for youth aged 3–21. Services include health assessments, vision and hearing screenings, immunizations, acute and chronic illness care, and health education. Centers operate in schools (School-Based Health Centers) or near school property (School-Linked Health Centers).
- Launched in 2010, the **School Wellness Program (SWP)** boosts academic success by promoting students' physical and mental health through collaboration with schools, parents, and health professionals to address community health needs.
- The **Expanding, Enhancing Emotional Health (E3)** program offers on-site mental health services for students with mild to moderate needs, including referrals, tracking, and follow-up. Providers work full-time at a single location, staffed by licensed Master's level mental health professionals, and serve elementary to alternative schools in compliance with School Code Regulations.

# INTRODUCTION TO MICHIGAN'S LEGISLATIVE HEALTH CENTER REPRESENTATION

Michigan's school-based, school-linked, school wellness, and mental health programs play a vital role in ensuring equitable access to health care for children and adolescents across the state. This section highlights the alignment between Michigan's legislative districts and the health centers serving these communities.

Organized by Congressional Senate, State Senate, and State Representative Districts, this directory outlines:

## **LEGISLATIVE REPRESENTATION:**

A detailed listing of each district's selected officials, showcasing their dedication to advancing youth health and wellness.

## **HEALTH CENTER COVERAGE:**

A comprehensive overview of the school-based, school-linked, wellness, and mental health programs operating within each district.

Nearly all of Michigan's districts are home to one or more of these essential programs, reflecting a statewide commitment to student health. By connecting legislative leaders to the centers they represent, this directory underscores the partnership between policymakers and the health services vital to their constituents. Together, these centers and their legislative champions are advancing Michigan's goal of fostering healthier, more vibrant communities where all students can thrive.

advocate who  
championed  
school-based  
health and the  
well-being of  
Michigan's youth.*

*"If the corner wasn't there, my views on health and life would have been different. I would have probably been deprived of basic health needs."*

– Zeaira Chestang, Corner Health Center

*"I love my student based health clinic and the things they do for me. From a little band-aid to a full check up I thank everyone for caring about my health."*

– Tiarria Burrell, Benton Harbor School-Based health Center

*"The clinic has helped me get rid of my headaches and make me feel like I am a better person. This helps me to stay in school. I have come to school instead of staying home many times because I know that the clinic is there if I need it."*

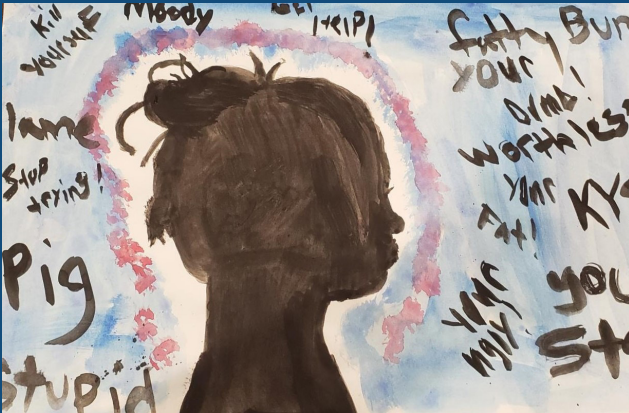

– Agnes Todd, Adams Upper Elementary

*"The staff at the clinic really helps the students. When you are not feeling good they always see you and help you feel better. Even if they cannot see you right away they will call your classroom for you later that day."*

– Aisha Fletcher, Adams Upper Elementary

***"For the Love of You"***
